This is a legitimate site set up by and for Landowners in New South Wales, Australia, on hectarages of 10ha+ who are being financially persecuted and unconstitutionally discriminated against by the New South Wales Govt.'s Department of Primary Industry's Local Land Services (LLS).

If you had properly researched this site you would know it's "fair dinkum" – Australian slang for legitimate, sound, truthful. I've put comments about your incompetence on your scamadviser site. Why don't you take the trouble to read it?

If you don't fix this immediately I'll report you to Google as a violator of the net.
